STATEMENT OF CONCERN

True to its mission and vision, Amigos has a long history of providing exemplary quality service to its members (and member communities) whether it be through vendor discounts, affordable and relevant continuing education, fellowships, professional services, RDA Toolkit access, the job bank, courier service, or management services. As a Board member, my concern would be that Amigos maintain its commitment to upholding its values, including a strong emphasis on customer service, a dedication to thoughtfully allocating resources throughout the organization as needed, a commitment to providing cost-effective professional development activities, and an awareness of library trends and needs that translates into products and services that benefit member libraries. This strong sense of responsibility and stewardship towards its members and the ability to identify and provide necessary and beneficial services help make Amigos the strong library service network that it is. I feel strongly about the value of Amigos and hope to become part of the representation that keeps the organization strong and relevant to libraries.

Christina Prucha
