Continuing Education

Amigos will offer the following live online courses and conferences in the coming weeks:

- **January 18-21:** *Basics of WorldCat Resource Sharing*
- **February 15-18:** *Everything You Always Wanted to Know about ILL but Were Too Busy to Ask*
- **March 8:** *Constructing Custom Holdings in OCLC*
- **March 15:** *Creating Copy, Loan and Deflection Policies in OCLC*
- **March 28:** *Know & Go: OCLC WorldCat Direct*
- **March 29-April 1:** *Mysteries of the WorldCat Resource Sharing Administrative Module Explained*

See the complete Amigos training calendar [here](#).

Updating Address Records Electronically

It is important to make sure your TAE/TExpress information is updated for OCLC in the Constant Data Records of the [WorldCat Resource Sharing Administrative Module](#). Please use the following screen shots as a reference.

In the screen shot below, the location number and hub must be in the "Ship Via" field under "Borrowing Library Information." We also recommend entering the location number and hub city code in the "Ship To" field beside the mailing address.

The screenshot shows the 'Constant Data Records' page in the WorldCat Administrative Module. The 'Borrowing Library Information' section is expanded, showing fields for 'CD Name', 'Need Before', 'Request Type', 'Edition', 'Ship To', 'Bill To', 'Ship Via', 'Electronic Delivery', 'ILL Fee Management', and 'Maximum Cost'. The 'Ship To' field is populated with '23 - DAL/Amigos Library Services /14400 Midway Road/Dallas, TX 75244'. The 'Ship Via' field is populated with 'Library Rate: TAE/TExpress Courier #23 DAL'. Red arrows point to these two fields with the text: 'You can put TAE information here.' and 'You must put TAE information here.' respectively.

Updating Address Records Electronically continued on page 2.

TAE Tips

Follow these useful tips to save staff time and ensure quick shipments.

- **Check your labels** to be sure the location number and hub city match what is on the Amigos website for both your location and the receiving location. See [labeling instructions](#).
- **Update your participant list.** See <http://www.amigos.org/node/137> to help prevent delays due to returned or lost shipments.
- **Pack your items properly** to ensure safe passage through the courier service. Make sure the label is clearly visible and secured to the shipment. It is okay to reuse envelopes but please be sure to black out previous markings on labels to avoid misshipments. It's also a good idea to place a strip of invisible or Scotch® tape on the inside flap of the window on the nylon bags to prevent the label from slipping out during transit (see photo on page 3).
- **Designate a TAE pick-up/drop-off location** separate from your United States Postal Service pick-up location. Each year, hundreds of misdirected shipments arrive at Amigos that were meant for the USPS.

Please report your statistics every month. Amigos uses them to encourage participation in the courier program. For Texas participants, these statistics are important tools that TSLAC uses to persuade the Texas Legislature to continue its funding of the courier program. Use this convenient reporting [form](#).

Scrolling further down the page, you will see the “Lending Information” section. If you lend items, also be sure to enter your location number and hub info in the “Return Via” field. We also recommend you include this information in the “Lending Notes” and “Return To” fields.

The screenshot shows a web browser window with the URL <http://firstsearch.oclc.org/crservlet/org.oclc.fs.admin.AdminBuildLLStaff.jsessionid=EAB925034C1532939D747DF4DFBCCAC4.srv>. The form contains the following fields:

- Department: [text box]
- Status: [text box]
- Address: [text box]
- Phone: [text box]
- E-mail: [text box]
- Fax: [text box]
- Notes: [text box]
- Lending Information**
- Due Date: +1 relative to today's date (format: +DD)
- ILL Fee Management (IFM): Apply
- Lending Charges: [text box]
- Shipped: -0 relative to today's date (format: -DD)
- Ship Insurances: [text box]
- Lending Notes: Trans-Amigos Express/Express 23 - DAL (Red arrow points here with text: "You can put TAE information here.")
- Lending Restrictions: [text box]
- Return To: 23 - DAL/Amigos Library Service /14400 Midway Road /Dallas, TX 75244 (Red arrow points here with text: "You can put TAE information here.")
- Return Via: Library Rate, TAE/Express Courier #23 DAL (Red arrow points here with text: "You must put TAE information here.")

At the bottom of the form, there are buttons for View/Print, New Blank Record, Delete Record, and Save Changes. A footer contains language options: English | Español | Français | 日本語 | 中文(繁體) | 中文(简体) | Help | Site Map | Exit | Back to top.

Libraries pull your shipping information from your institution's Constant Data Records, and updated information ensures fewer shipping errors. If you also maintain a separate set of address records, please be sure all participant information is updated according to the master [participant list](#).

Misdirected Packages

If you receive a shipment containing a bright yellow-orange slip of paper, it has been routed to Amigos for redirection. This slip is a Misdirected Package Notice, completed by an Amigos representative. It notes what caused the package to be misdirected, where it will be sent, and if the shipment is returned to the sending library, instructions on how to avoid future labeling mistakes so that further misdirects can be avoided.

Below is an example of a Misdirected Package Notice that would be included inside a shipment going from Austin Public Library (153/AUS) to Kaufman County Library (a non-participant):

If you receive this particular notice inside of one of your shipments and have questions, please contact Amigos, tae@amigos.org.

The sample notice is titled "Misdirected Package Notice!" and includes the following handwritten information:

- Today's Date: 7/9/10
- Coming from: 153 AUS
- Going to: Kaufman County Library
- Reason: Not TExpress/TAE participant (with handwritten note "doesn't participate"), Incorrect labeling (with handwritten note "#9236 is an invalid location code")
- Amigos Action: The item is being returned to sending library (with handwritten note "Returned to: 153 AUS")
- Library Action: Label correctly (with handwritten note "send package by other means")

The slip also features the Amigos Express logo and a thank you message at the bottom: "Thank you for your cooperation in making your courier system operate more efficiently and to prevent loss and delays!"

Label Talk

Using the correct labels and completing them correctly is the best way to ensure your shipments arrive on time. Labels must include the shipping location and hub, the receiving location and hub, and the date shipped. Dates are important for tracking purposes. It is also important to check and determine if the library is an actual participant. Book-mark this [webpage](#) and take the time while processing daily ILL requests to verify whether or not an institution is actually on the list. Label errors may result in a shipment being returned to you. In the end, correct labeling can save the days to weeks it may take to redirect a package. See [labeling instructions](#).

It is also important when securing a shipping label to make sure it is visible. Amigos continues to receive locked bags with shipping labels missing from the clear plastic windows. To avoid delaying your shipments, please take a moment to place a piece of clear Scotch® or other invisible tape over the center of the inside flap to prevent the label from becoming lost during transit (*see photo below*). Use only clear Scotch® or invisible tape, as its adhesive isn't strong enough to damage the bag.

Hub Changes

Amigos continues to receive misdirected shipments due to labels containing old hub city codes. We return these packages to the lending institutions to correct the labels and remind them to update their systems with current hub city codes. Please update your information to reflect new hub designations for the following locations. As always, please check to be sure shipments are labeled correctly to protect against delays or losses.

Institution Name	New Hub	Location #	OCLC Symbol	Old Hub
Arkansas Tech University Library	TUL	853	AKP	LTR

Annual Survey Forthcoming

Next week, the annual courier service customer service satisfaction survey will be distributed to each institution's designated Trans-Amigos Express contact. If this contact has changed, please let Amigos know at tae@amigos.org. We want to hear about the quality of the service you received last year, your experience with the transition to the new service provider, your impressions on the state of the program today, and any suggestions for improvements as we move forward. This year's survey will combine the standard questions regarding the previous year's performance with questions about the transition and suggestions for the future. Your input is invaluable and will help us shape the program to better meet your needs, so please take a few moments to complete the survey and return this important information to us.
