STATEMENT OF CONCERN

Amigos Library Services provides resources, professional development opportunities and consultations to its membership. These services are vital to creating welcoming, relevant libraries and cultural centers that support the information, learning, teaching, research and social needs of our users. Amigos creates an inclusive platform where academic, public and school libraries and state, cultural and corporate centers come together to collaborate on resources licensing, to learn with and from one another and to seek guidance in challenging times. It would be an honor to participate on the Board of Directors to ensure membership perspectives are represented and understood and to help shape the future of Amigos.
