STATEMENT OF CONCERN

Since my arrival in Texas in 1997, I have benefited personally and professionally from the work and resources of many state and regional consortia like Amigos. I've gained new skills and increased my professional knowledge through Amigos' continuing education courses and I've been able to contribute to the ongoing work of libraries (of all types) through participating in Amigos groups, task forces, and committees over the years.

In my former role as a department head, I understood the value of shared licensing and purchasing, but the real value to our library and its staff and users only became apparent to me once I became the Executive Director of the Neumann Library here at the University of Houston-Clear Lake. We get significant value from the cost-effective licensing and purchasing agreements that Amigos negotiates on our behalf, and many of my staff have benefited from the many training and continuing education courses Amigos offers. Amigos' ongoing efforts to foster conversation among staff at all library types is yet another contribution enriching libraries across the region.

As a member of the Board of Directors, I will work to ensure the continued success of the organization and the ongoing enhancement of our region's many libraries through the work of Amigos' staff, its vendor partners, and its members. Thank you for your consideration.
