IGI Global Training

International Publisher of Progressive Information Science and Technology Research

IGI Global Background

- Founded in 1988
- Headquartered in Hershey, Pennsylvania (USA)
- International publisher of reference books, journals, and videos
- Research focuses on the latest information science and technology advancements in academic subject areas
- E-Resources innovator

IGI Global Research Growth

Academic Video Lectures

What is the challenge?

Academic innovation requires technology research partnership to bring the most cutting-edge materials to students and faculty.

Over three-fourths (84%) of the universities surveyed found it difficult to keep up-to-date with applied technology books and journals.

"Universities have a responsibility to be more responsive to the needs of student and faculty innovators and researchers. It is time to get a reform underway, fast."

–The Chronicle of Higher Education, July 2015

11 Diverse Subject Areas

Focusing on Information Science and Technology Research

Business and Management Information Science and Technology

Computer Science and Information Technology

Educational Science and Technology

Engineering Science and Technology

THOMSON REUTERS

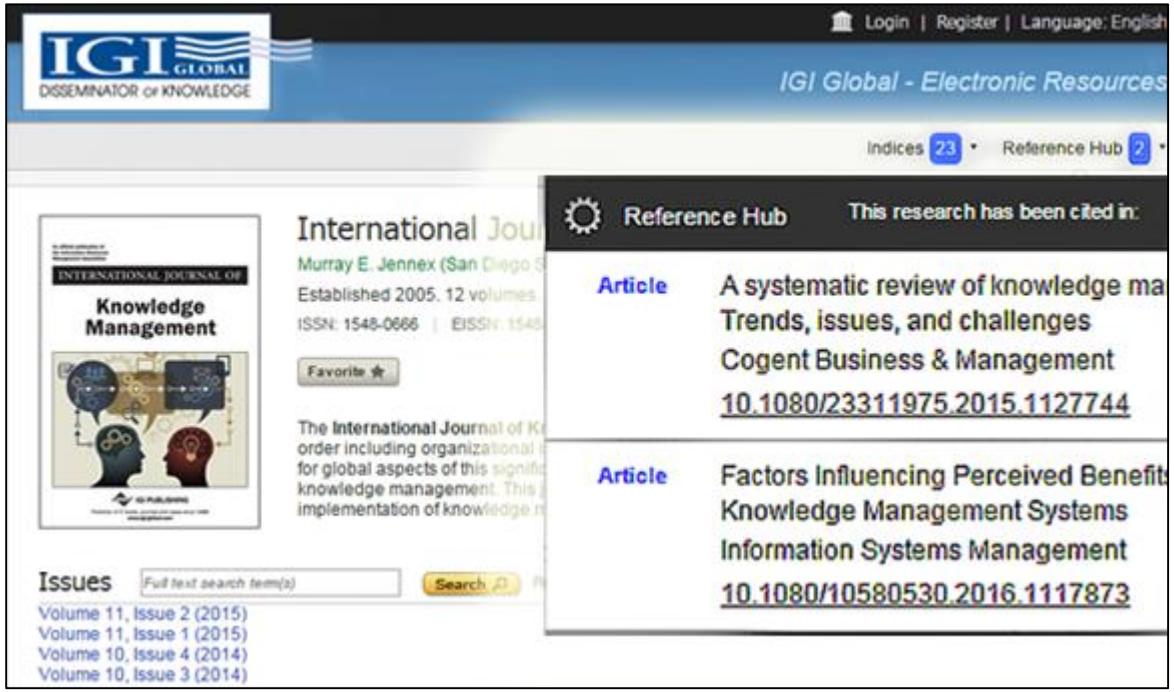
Top-Rated Platform for Researchers

- Full-text in XML and PDF
- No DRM: Copy, Paste, and Print Directly from the Platform
- Unlimited Simultaneous Users
- Advanced Search Engine
- Popular Citation Tools
- No Embargo of Content

New Features for Researchers

Reference Hub

- A visual representation of the number of citations when viewing research
- Automatic citation generator that continuously updates where the research is being used
- Citation information from books, journals, proceedings and conferences
- DOI information which connects researchers with the research cited in the article



Indices

- Automatic generator of indices which have recognized the publication
- Quickly link to the indices home page

Librarian-Friendly Features

- Personalized Platform
- Persistent URLs
- COUNTER4 Compliant Usage Statistics
- Free MARC Records
- Integrates With Discovery Services
- Archival Access
- No Maintenance or Service Fees

New Features for Librarians

LibGuides

- Librarians are able to easily copy and past entire subject specific guides directly into their LibGuides
- Save time!
- IGI Global Search Box allows search capabilities of university's holdings
- Also offering customized LibGuides

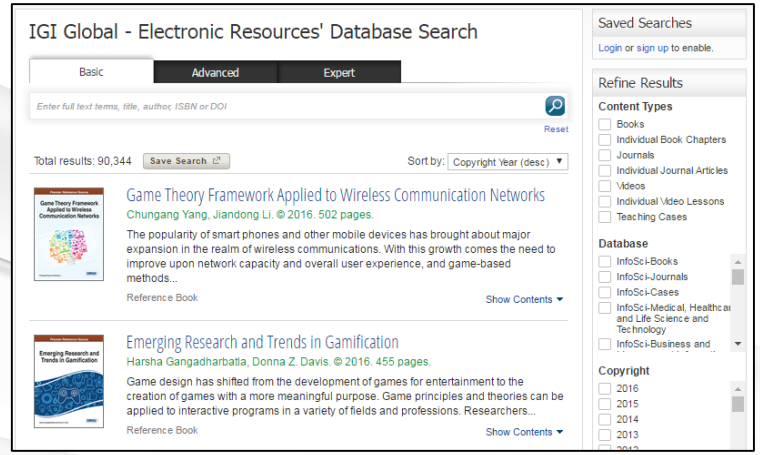
Profiles of Use

- Handout to tell the story of how universities are utilizing IGI Global e-books, e-journals and videos to make an impact in their academic communities.
- Showcases seven international universities

Searching Options

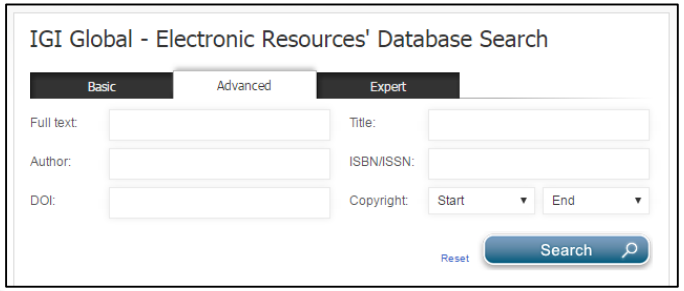
Basic Search

- Enter the desired terms into the basic search box and click the search icon
- Refine your results with the Refine Results menu navigation to the right



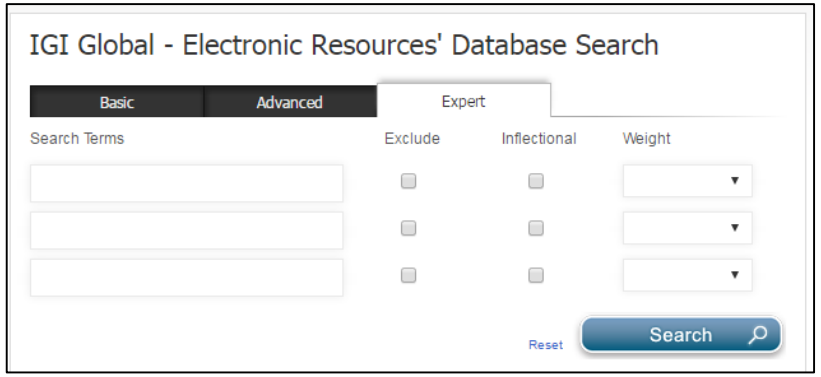
Advanced Search

- Used to quickly and easily narrow your search fields in your initial search



Expert Search

- Unique to IGI Global and offers a detailed search option for users
- Search with certain terms excluded, included, or weighted within your results



InfoSci-Databases

Databases for Progressive Information Science and Technology Research

InfoSci®

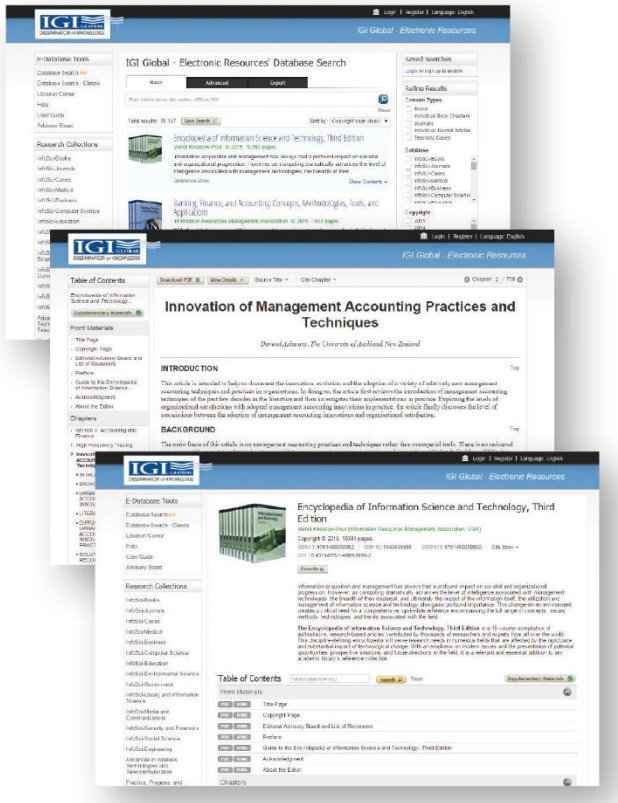
InfoSci®- Books

Comprehensive Collection

- Over 74,750+ full-text chapters from over 3,400+ reference books

Unlimited Simultaneous Access

- No limits as to how many concurrent users are logged in and using the content simultaneously
- Full-text PDF viewing that allows copy, paste, and printing capabilities



IGI GLOBAL
DISSEMINATOR OF KNOWLEDGE

InfoSci-Books Reviews and Testimonials

- "A major strength of the database is a common repository of these publications that hasn't existed before this time… The timeliness of information is improved because publications can be made accessible before the paper copy is received in the mail. In the past, one had to wait for the distribution of journals to gain access to them (in a library setting, or university distribution center this may take longer than one would think). The online system means access to information anywhere and at any time. This is critical for many researchers who are working at home, in the office, or perhaps even abroad."
  - Shirley A. Becker, PhD, Northern Arizona University

- "This database is excellent for locating a wide range of documents which will be of use to me and my students."
  - Susan Myburgh, PhD, University of South Australia, Australia

- "It's really provides an excellent entry into the research literature of the field. It presents a manageable number of highly relevant sources on topics of interest to a wide range of researchers. The sources are scholarly, but also accessible to 'practitioners'."
  - Lisa Stimatz, MLS, University of North Carolina at Chapel Hill, USA

LIBRARY JOURNAL
Best Database

InfoSci®- Journals

Comprehensive Collection

- Over 19,000+ full-text articles from more than 166+ scholarly journals

Unlimited Simultaneous Access

- No limits as to how many concurrent users are logged in and using the content simultaneously
- Full-text PDF viewing that allows copy, paste, and printing capabilities

InfoSci-Journals Reviews and Testimonials

- "It is not only about the wide coverage of the database, it is about the quality of the contributions. In certain areas, Information Technology, for instance, it is normal to discover a handful of relevant papers published in the last months covering up-to-date technologies recently launched."
  - *Dr. Ricardo Colomo-Palacios, Universidad Carlos III de Madrid, Spain*

- "InfoSci®-Journals is a treasury for researchers, educators, R&D engineers, and managers. Going beyond the boundaries of professional fields of IT/IS, it extends its range to be more interdisciplinary. InfoSci®-Journals database provides high-level, valuable articles with insights and implications for experts in educational, managerial, and governmental fields. Teachers and professors can also find interesting teaching cases in this prestigious database.
  - *Chia-Wen Tsai, Assistant Professor, Department of Information Management, Ming Chuan University, Taiwan*

- "I have faculty in my computer science department chomping at the bit for this kind of content!"
  - *Lia Hemphill, Nova Southeastern University, USA*

Recommended By CHOICE

InfoSci®- Videos

New in 2016!

- Over 100+ streaming video lectures
- **Internationally-Recognized Scholars and Industry Leaders**
- Complementary to IGI Global publications

Unlimited Simultaneous Access

- No limits as to how many concurrent users are logged in and using the content simultaneously
- Closed Captioning

IGI GLOBAL
DISSEMINATOR OF KNOWLEDGE

InfoSci-Videos Reviews and Testimonials

- "Amazing breadth, with online teaching and learning covered extensively. The cast of lecturers is quite international, although presentations are entirely in English. Videos are viewed directly in the browser window and may be expanded to a full-screen view while retaining quality."
  - *Bonnie J.M. Swoger, Library Journal*
