The INTELECOM Online Resources Network[®]

What is the INTELECOM Online Resources Network[®]?

The INTELECOM Online Resources Network[®] is a fully-hosted and searchable video on demand database designed to meet the growing demand for rich media in support of online, hybrid and face-to-face classes. Enrich instruction with curriculum-aligned content from respected names in instructional media development.

Why Use the INTELECOM Online Resources Network[®]?

The INTELECOM Online Resources Network[®] builds on best practices in content delivery and search logic to offer a reliable video streaming and teaching tool that is thoughtfully-curated, affordable, and easy to use. Enjoy best-in-class technology and broadband video without the server costs and hassles. No video by the pound. No risk of copyright infringement.

Improve Student Learning Outcomes, Retention and Completion Rates

Building on INTELECOM's proven track record in content development and technology-mediated instruction, the INTELECOM Online Resources Network[®] provides faculty and instructional designers ready access to the content they need to provide an engaging and student-centered experience that leads to learning.

Features and Benefits

SEARCH

SAVE

STREAM

Hosted and Supported

Hosted and searchable academic and career video from leading producers – in a single, reliable and affordable solution.

Flexible Delivery

Purchase a subscription to the Academic Collection or subscribe to one of a growing number of CTE collections.

Embeddable Players and URLs

Video players in a choice of sizes and permalinks for all videos.

Innovative Browse

An intuitive search interface pre-organizes content by discipline, course, and topic.

Citations

Web video citations in choice of formats: APA, MLA, Chicago Manual of Style.

CMS/LMS Compatibility

Embed codes and URLs are easily embedded into any LMS (e.g. Blackboard, Moodle, Canvas).

Quality Content

24/7 access to 5,000+ video clips in more than 40 disciplines, with new content added regularly.

Usage Statistics and Reporting

Report generation for tracking institutional usage by discipline, course, and video clip.

100% Closed Captioned

All video is closed captioned and meets 508 requirements for the hearing impaired.

Authentication and Single-Sign-On

Access can be authenticated using IP, EzProxy, and domain-referring URL.

User Support

Video tutorials, FAQs, MARC records and a downloadable user's guide make it easy for faculty to discover content and get started.

Discovery Services

Integrated with discovery services including Summon™, WorldCat® Discovery, EBSCO Discovery Service™ and A-to-Z.
