STATEMENT OF CONCERN

In order for libraries and librarians to remain current and relevant in today’s dynamic information environment, it is extremely important that there are opportunities available for affordable continuing professional development and for collective purchasing. Amigos is uniquely positioned to provide these opportunities and has done an amazing job in strategically planning and adapting to recent challenges to continue this very important service. I believe that Amigos leadership consultation with its Board of Directors that consists of dedicated library professionals is a big reason for its continued success.

I am very honored to be asked to run for the Amigos Board of Directors. Throughout my career in libraries, I have welcomed opportunities to serve not only the immediate library community in my institution, but also to provide service to the larger library community. Likewise, I embrace this possibility to work within the Amigos Board in developing programs and services that will continue to assist libraries of all types and sizes in these extremely fiscally conservative times.

I appreciate your consideration.
