STATEMENT OF CONCERN

In order for Amigos to become and remain indispensable to its members, Amigos and its Board of Directors must be concerned with not only continuing to utilize available resources but also with pursuing new and innovative avenues to continue to create opportunities for affordable, relevant and timely professional development, resource sharing and collective purchasing.

Amigos has continued to be successful in providing these opportunities through thoughtful assessment, strategic planning and adapting to the dynamic needs of its member libraries. In turn, these libraries are better equipped to anticipate and meet the needs of their users.

I believe that Amigos leadership consultation with its Board of Directors consisting of highly dedicated library professionals is a key reason for its continued success.

I am very honored to be asked to run for the Amigos Board of Directors. Throughout my career in libraries, I have welcomed opportunities to serve not only the immediate library community in my institution, but also to provide service to the larger library community. Likewise, I embrace this possibility to work within the Amigos Board in developing programs and services that will continue to assist libraries of all types and sizes in these extremely fiscally conservative times.

Thank you for your consideration.
