Bienvenidos al museo. Mi nombre es Carmen Perez. Y voy a ser su guía. El museo está abierto de martes a domingo de nueve de la mañana a seis de la tarde. Si tienen alguna pregunta, por favor, me lo dicen. En este pasillo a la derecha, están los baños si los necesitan.

The next evolution in language learning

Mango's award-winning language courses combine quality content with intelligent technology to deliver practical phrases from real situations in a way that makes you want to start the conversation. Every learner’s experience is unique: Mango adjusts to your learning pace, teaching until you feel confident with new words and phrases, creating a learning solution centered around you.

Methodology

Mango's proven methodology powers over 70 world language courses, and more than 20 ESL courses. Expert linguists and native-speaking instructors craft each course, and ensures every lesson is culturally accurate, and conversationally relevant.

An accessible, all-in-one course selection interface reveals learner progress in real time and enables learners to browse relevant language courses, motivating users to engage in various modes of learning and review.

Listening & Reading Activities build on vocabulary and learning progress by presenting written passages, audio segments, and comprehension questions that challenge learners with both familiarized and new course content.

The Mango Review System uses intelligent algorithms to provide learners with a personalized review experience that adapts to their progress and learning behaviors.
Critical thinking and memory-building exercises enable the learner to effectively retain learned material.

Language-specific grammar and cultural insights are provided to ground the learner in language and culture.

Understood & Literal meanings and Semantic Color Mapping reveals the relationship between the learner’s target language and native language.

Interactive words present phonetic prompts and articulated audio, plus the voice comparison feature provides the ability to record and compare speech with native-speaker audio.

Intuitive Language Construction builds the four conversational skills necessary to establish meaningful connections in a new language: vocabulary, pronunciation, grammar, and culture.

Additional features

**Mango Classroom**
Award-winning classroom functionality that complements teacher instruction and promotes student confidence, encourage participation, and keep progress transparent.

**Mango Live**
Virtual one-on-one and group instruction from qualified language experts around the world, accommodating busy schedules and personalized to learner goals.

**Mango Movies** (*formerly Mango Premiere*)
A selection of world films provide a breakdown of each line of dialogue and apply the same learning cues as the language courses.

- **Mango Administration Portal (MAP)**
Real-time data dashboard for keeping track of learner engagement, time spent in courses, and languages studied.

- **Family Profiles**
Learners can add up to five usernames and track progress separately for each sub-profile.

- **Groups**
Designed for group learning, this feature tracks learner progress, time spent learning, course engagement, and assessment results.

- **Assessments and Recaps** (*Recaps formerly Chapter Reviews*)
Chapter Recaps, quizzes, and unit tests are available throughout courses to help learners review and retain content.

- **Mango Market**
Exclusive to our customer accounts, Mango Market offers promotional items that are easy to order and ship directly to your organization.

- **Customer Service**
Real-life humans are on stand-by to answer questions, troubleshoot, and collect feedback.

- **Mobile Apps**
Equipped with Bluetooth integration and auto play features. Offline learning provides the ability to pre-download lessons, enabling access during limited or no connectivity.
